Individuals have to consider the following information in addition to the general information for all starters

1. Travel information towards and last preparations in transition area I

1.1. Athlete shuttle to the swim start on race day

There will be a shuttle bus for athletes which leaves from the Roth school center (Belmbracher Straße, 91154 Roth) to the swim start at the following hours:

04:20 a.m. / 04:40 a.m. / 05:00 a.m. / 05:20 a.m. / 05:40 a.m.

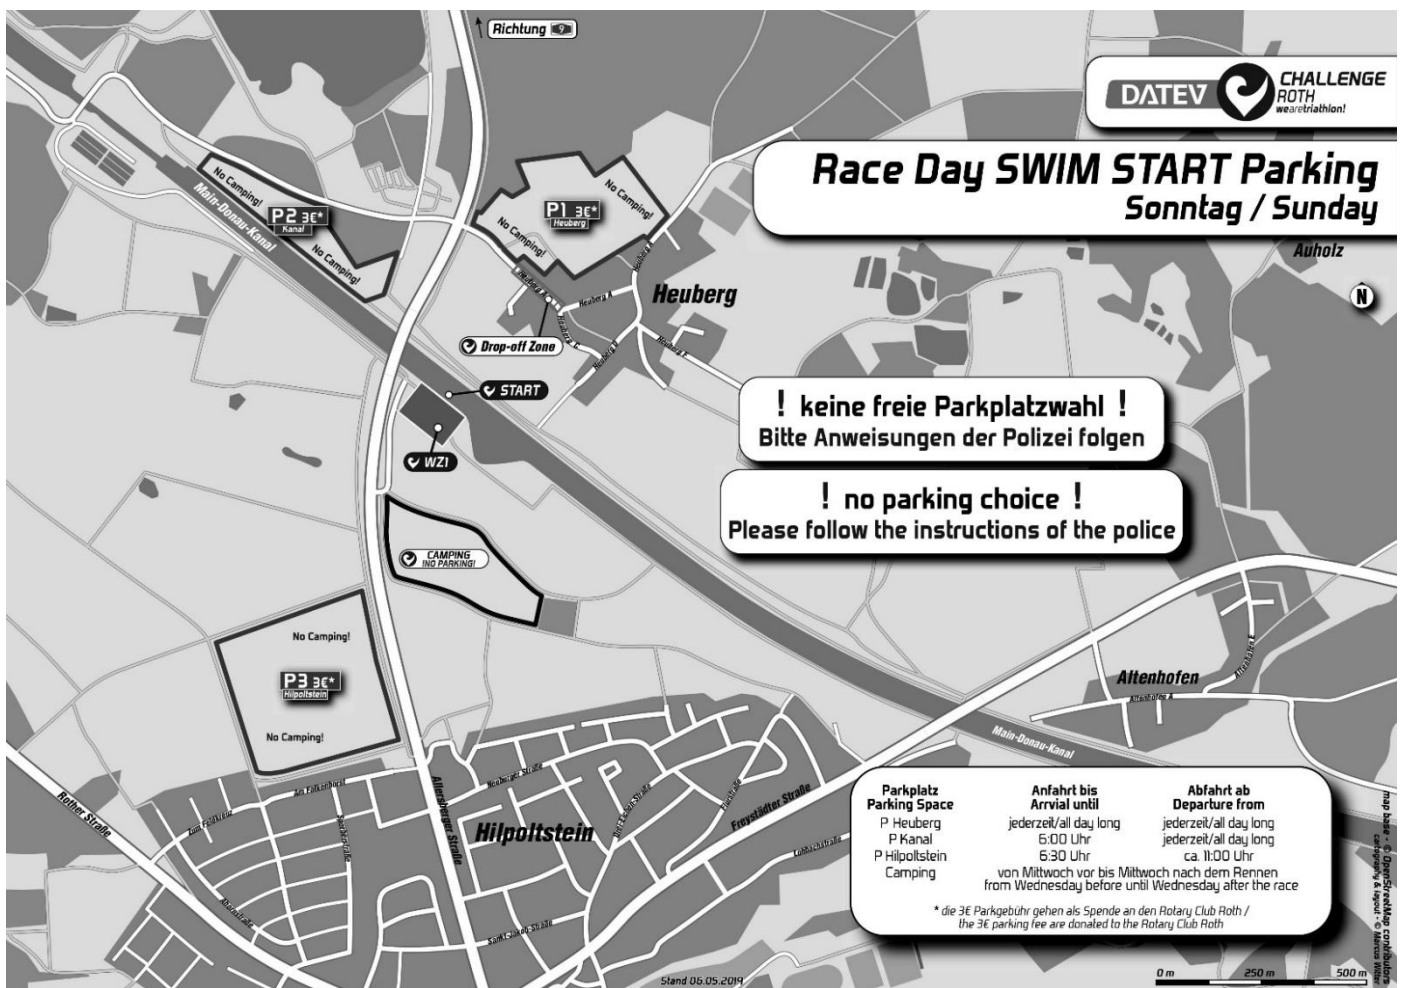

The shuttle bus may only be used by athletes who have come to Roth without a car. In order to obtain a place on a shuttle bus to the swim start in the morning, please tell our staff at the athlete service that you would like to use the bus. You will then be informed about which bus to take. It will not be possible to use the shuttle bus in the morning without having signed in for it at the athlete service. The places on the bus will be allocated on a first-come, first-serve basis.

1.2. Possible parking spaces at the swim start

Athletes with their own car as well as their families and friends are requested to use their own car to drive to the swim start. 15.000 parking spaces will be available there.

Some of these meadows and parking spaces are privat property and therefore have to be paid. Therefore the approving authority have obliged the organizer to raise a fee for his own parking spaces. Rotary Club Roth will look after these parking spaces and collect the complete parking fee of EUR 3,00 (please hold ready loose cash) for charity purposes.

Since there will be high traffic in the morning on race day, all participants are urgently recommended to arrive at the swim start by 4:50 a.m. Orders from the official staff, fire brigade and the police must be strictly observed. Please also observe the signs where parking is absolutely prohibited!

1.3. Access to transition area I

The transition area I opens at 05:00 a.m. on race day.

2.2. Entering the starting area

All athletes of a start group must proceed to the start check-in 5 minutes before the start time. 2.3. Quitting the race during the swim

If a participant decides to quit the race during the swim, he must immediately contact the lifeguards (every 200m along the waterside) **and** one of the directors or team members of the time keeping company mika:timing in the transition area I.

If this does not happen and rescue measures are initiated, these will have to be paid by the participant himself.

A return service to the Finishline together with the bike is only possible, after the last swimmer has finished the swim.

2.4. After the swim

After the swim, the competitors themselves must put their wetsuits into the red clothing bags.

3. Bike

The following instructions are to be observed for the competition, in particular for cycling:

3.1. Traffic rules

During the bike race, the official traffic regulations (StVO) are valid on the whole bike course.

In accordance with the official traffic regulations (StVO) and the DTU Sports Regulations, athletes are obliged to keep to the right side of the road on the bike course. Athletes who cycle in the middle of the road for an extended period of time without wanting to overtake anyone (blocking), will be given a blue card. In addition, all drivers of the official accompanying vehicles, have to stay on the right side, too!

If an athlete is disqualified or quits the race, he will have to leave the bike course and remove his start number or let his start number be marked with a black cross. He will be permitted to cycle on to the transition area II, but only in the direction of traffic. If the bike course is closed to traffic or partially closed to traffic, it has to be used as a one-way road.

Reversing or cycling against traffic is strictly prohibited.

Before the start of the race, the organizer gives a list of all competitors who are allowed to start to the police, including their respective start numbers. Every competitor must wear his start number in a way, that it can easily be recognized throughout the race on the back of the tricot.

3.2. Return service on the bike course

Athletes who have to quit the race on the bike course, have to inform the directors of the course. They can ask the organisers on-site, for example at the aid stations as well as the directors or marshalls, to call the hotline for quitting athletes and inform the return service.

There are four moving return services at the whole bike course. Composed of a van and a small transporter.

After the arrival in Roth the athlete has to return his transponder immediately at transition area II.

If a penalty is imposed between the penalty box in Eckersmühlen and transition area II on the second lap, the athlete will have to serve the penalty in transition area II.

The time penalty is 5 minutes, with an additional penalty loop of 1 km on the first loop of the run course at kilometer 1.5. If an athlete receives two penalties, he will also have to run two penalty loops. If an athlete does not comply, he will be disqualified.

3.6. Bike service

During the competition, Radsport-Buchstaller will provide three service points for athletes. They are located 400 m before the village Thalmässing, second close to the village Holzi (2 km behind the village Obermässing) and in Hilpoltstein, Albersberger Straße near Radsport-Buchstaller.

Due to the wide variety of different wheels, groupsets e.g. there will be **no mobile service squads**. The stationary points will therefore offer more material than in the years before. Athletes should make sure to bring their own spare material to make it to one of the service points.

3.7. Spare wheel

Spare wheels which are handed out by the bikeservice during the race will be collected back by the service-team Buchstaller in the transition area II in the afternoon.
